# How Ferguson Enterprises, LLC Gets the Job Done With Reliable Fueling

## ABOUT FERGUSON

Ferguson Enterprises, LLC is a leading distributor in North America providing expertise, solutions and products—such as infrastructure, plumbing, appliances, HVAC, fire, fabrication, and more—to residential and non-residential contractors. With highly skilled and knowledgeable associates, their mission is to make complex projects simple, successful, and sustainable.

## THE CHALLENGE

As an industry leader, Ferguson prides itself on providing fast and trustworthy service. However, when it came to fueling their fleets, they were not receiving the same level of service in return.

The time spent taking off-route gas station trips hindered their business, and relying on other fuel providers proved ineffective as delivery times were frequently delayed or missed entirely.

Ferguson also needed a provider that integrated with WEX fuel cards, their primary method of payment.

## THE SOLUTION

Ferguson turned to Booster, an industry leader in providing reliable mobile energy fuel service. "It has been a game changer," says Alli Davis, fleet analyst at Ferguson.

Now, Booster's dedicated customer support team ensures fueling fleets at 14 of Ferguson's locations is a seamless process with dependable, on-time deliveries.

Ferguson also benefits from Booster's advanced fuel portal and partnership with WEX. The portal provides clear and transparent fuel card usage, customizable reports and detailed billing across all locations.

"The service has always been great and our Booster team is easy to get ahold of."

Alli Davis, fleet analyst, Ferguson

## THE RESULTS

**766** vehicles

fueled consistently. Booster never misses a delivery window, so Ferguson fleets stay fueled and on the go.

**17,000** miles

reduced by avoiding off-route gas station trips per quarter, allowing Ferguson to dedicate more time to other key aspects of their business.

**\$228,000**

in annual savings on labor costs, wear and tear, and fuel card misuse.

## Partner With Booster

Discover how Booster can impact your business through reliable and cost-effective mobile fueling.
