

BOOSTER® Immediate Impact

Elevate Your Fleet's Sustainability with Booster

Switching to mobile fueling with Booster could instantly improve your Environmental, Social and Governance (ESG) score, and indicate to the community that your fleet is operating in a responsible and sustainable manner.

Environmental Impact

- ✓ Eliminate up to 3.21 lbs. of CO₂ with each fill
- ✓ Reduce 260 lbs. of GHG emissions per vehicle per year
- ✓ Eliminate ground and water contamination

Social Impact

- ✓ Reduce accidents at the gas station
- ✓ Prevent injury or handling liabilities
- ✓ Increased driver happiness and reduced overtime hours

Sustainability Impact

- ✓ Renewable diesel available in select markets
- ✓ Additional 70% reduction in carbon emissions with renewable diesel

Reach out today to our sales team at fleet@boosterfuels.com to learn more about our mobile fueling services and how we are helping fleets just like yours to meet their sustainability goals.
