

Booster Smart Tanker

Optimus

Optimus is the brain of our cloud-based technology that maintains a detailed record of each vehicle serviced.

Safety Features

Our smart tankers are equipped with spill prevention equipment, three emergency shutoff valves, and a 40 B:C fire extinguisher to ensure we put safety first, always.

Detailed Reporting

Vehicle fueling data is made available to view and download in the Booster Customer Portal enabling you to make informed decisions about your fleet.

Transparency Through Data

The beauty of all this data? You can eliminate the paperwork and have service and invoicing reports delivered to your inbox at your convenience.

Near Field Communication (NFC) tag

NFC Tags identify the vehicle and its fuel type, ensuring fueling accuracy and avoiding cross-fills.

Service Professionals

Our state of the art Mobile App delivers up to date information about your fleet to our SPs enabling them to provide great service every single time.

BOOSTER®

- ✓ U.S. DOT 406 certified tanks
